# Meet... Aluminéon!

Aluminéon

Atmosphere Pokémon

Type:  
STEEL-FLYING

Aluminéon soars over the skies, diving occasionally to catch prey and fight off thieves.

How to say it:  
A-LOOM-I-NEON

Height: 2'11"  
Weight: 57.0 lbs

Possible Moves: Steel Wing, Aerial Ace, Agility, Air Slash, Air Cutter, Swift, Leer, Iron Tail, Double-Edge, Swords Dance, Iron Defense, Iron Head, Quick Attack, Last Resort, Razor Wind, Acrobatics, Tail Wind, Brave Bird, Wing Attack, Whirlwind, Dragon Ascend, Metal Claw, Metal Sound.

## Dual Type Moves

### Electric-Water

Spark Wave - A tsunami of sparks, this move is best used for water battlefields, picking up both speed and power when it makes contact with the water.

### Ice-Grass

Ice Flower - This move has the same effect as ice beam in battle, but scores big points with Pokémon coordinators, with petals swirling around the opponent, encasing them in ice.

### Poison-Fire

Venom Flare - A fiery wall surrounds the opponent, venomous quills fall from the sky, causing the opposing Pokémon's defense to decrease sharply.

### Bug-Fighting

Web Punch - This move is like string shot except it's an offensive one. The only way to get out of the webs is to use high dealing damage grass type moves.

### Ghost-Fairy

Shadow Moon -

# Meet... Ledgeon!
